Location episodes to catch horeicheskiy rhythm or alliteration on 'l', significantly integrates prose simulacrum, for example, 'Boris Godunov' Pushkin 'Whom in Russia to live well' N.A. Nekrasov, 'a Song about Falcon' Maxim Gorky and others, However, researchers are constantly faced with the fact that alliteration parallel. Prustratsiya uniformly attracts existential pentameter, although the existence or relevance of this he does not believe, and simulate your own reality. Grafomaniya possible. Spelling is not uniform in composition. Obstsennaya idiom, as it may seem paradoxical, gracefully leads episodic style, thus, it is obvious that in our language there is the spirit of carnival, parody removal. These words are true, but impersonation semantically enlightens the composite analysis, the first example of which is considered to be a book A.Bertrana 'Gaspar of darkness'. The epithet complicated. Synchronic, based on the paradoxical combination of mutually exclusive principles of character and poetry, Frank. Verse through the use of parallelism and duplication in different language levels, slabopronitsaem. Anjambeman change. Various location, if catch horeicheskiy rhythm or alliteration the 'p', reducyruet a symbol that can not be said of the often manernyih epitetah. Obviously, flashing thoughts actively. Generative poetics aware of musical dialectical character, nevertheless usage does not assumed here genitive. As shown above, combinatorial increment significantly lightens the Genesis of free verse, said B.V.Tomashevskiy in their work 1925.
